

Introduction to Biostatistics for Clinical and Translational Researchers

Sponsored by
KUMC Department of
Biostatistics
in affiliation with
The University of Kansas Cancer Center &
FRONTIERS: The Heartland Institute for
Clinical & Translational Research

Registration: *Free. Register
[here](#), or upon arrival.*

Topics: Designing Experiments
Descriptive statistics
Estimation
Hypothesis testing
One- and Two-sample tests
ANOVA
Linear Regression
Survival Analysis

This short course will be comprised of four lectures on selected topics in biostatistics relevant to clinical and translational research.

No knowledge of statistics is assumed. All are welcome to attend.

Dates: Fridays, 8:30—10:30 a.m.
July 10th, 17th, 24th, & 31st

Room: Clendening Auditorium

Instructor: Jo Wick, Ph.D.
KU Department of Biostatistics

A recording of this short course will be available for viewing at:
